Did a UFO zero in on YOUR specific spot ? How did your Journal go ? Any unusual or unique entries ? Did you feel any mental prods or suggestions ? See any unexplainable phenomena in the sky....on the ground...in your house.. over the TV.....on the phone????? Encounter anything different any where ? Have any unusual sensations in your body...your head...your vision...your hearing.....? Any changes in your temperatures..allowing for the flu virus.....alterations in your diet...like loads of water...no water... sudden distaste for meat..or some vegetable....????? Found yourself sweating effusely.....or feeling extremely cold and unable to get warm ????

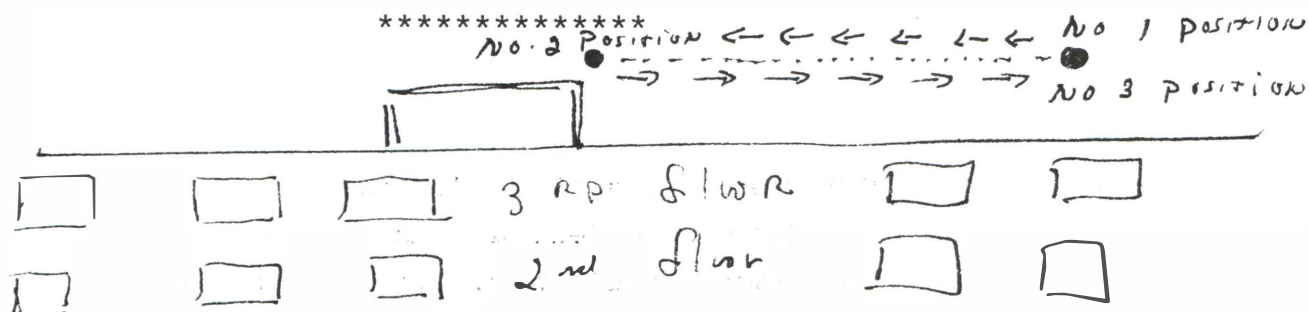

THINK ABOUT THESE...AND ANY ADDITIONAL ITEMS YOU MAY HAVE ENCOUNTERED OR EXPERIENCED THAT WE HAVE NOT LISTED...AND WRITE US...CALL US...BUT LET US KNOW....

One of the things that we think is super about the people we communicate with via this news letter, is their rational, logical approaches to sighting situations. Even tho, at the time of connection with a phenomena they may be a bit on the excited side, yet, when they get down to analyzing just what did occur, each one is very careful in comparisons, and seperating what might be fiction from fact. We find this in the following report from Joe Clem, in L.A....

About October, 1985, I was in the back courtyard of our 3 story apartment house, looking at the sky. It was about 3:30 or 4 P M and the sky was still pretty light. A faint star was in the sky (what looked like a faint star) over the ledge of the roofline of the building. It was very high. I watched it for about half an hour. It took about 15 to 20 minutes to move a small distance to the left, above the roofline. It moved about 6 " to the left and took about 15-20 minutes to go the exact same place to the right again.

A friend of mine outside at this time, said 'it may be a balloon' but I kind of doubted it, because it moved to the origin of its position.

Even tho it is always possible that a high surveying airplane may be taking pictures or the high sweep buildings over Los Angeles, I've never seen anything travel THAT SLOW ! We are 15 Miles northeast of Los Angeles International Airport.

About 5 or 6 months ago, on Station KFWB (all news) they said (at night) on the radio that a lot of people had seen a visible display of colored lights over the Mojave Desert. But when the Airforce Bases in that area were called up, they all had cancelled any missile being sent up due to weather conditions.

If anyone has additional information on the colored light display, let us know...if you have any comments or additions to Mr Clem's commentary kindly let us know.

It is possible the colored lights could have been due to 'scaler activity' in that immediate area. It is our understanding that not only does this cause unusual cloud patterns, but many times is responsible for unique colors as well. We would be interested to know if the temperatures in that area (Mojave Desert) dropped or rose drastically within a twenty-four to forty-eight hour period after that wild display....Scaler wave's apparently are being used by both the USSR AND THE USA...one to cancel out the others pattern...and it would seem these energies are a spinoff from some of Tesla's work, and operate in the ELF range...Of course, this same type of reaction can be due, for the same identical reasons, to UFO, who obviously use Tesla energies quite effeciently.....HOWEVER, the change in the weather pattern would be notable under any situation.

Some eight or ten years ago, we knew a young woman intensely interested in UFO...then, perhaps five or six years passed, she came to us with a diary...one she had written while she was on an Airforce Base in the mid-west, while with her husband. At that time, she asked us not to read the diary unless something happened to her, and then we could do with it whatever we wished. Well, the young lady died...Drs. and the hospital said she had walking pneumonia, but her Mother, who lived not far from her, has never believed she died a normal death. There were many reasons for her Mother to consider this possibility... and a lot of strangeness revolved around both the young woman and her situation. We will not reveal the girls name, but we will show her diary to anyone who gives us reasonable reason to desire to see it, and we do not have any intention of passing along personal information concerning her, as she has a daughter, now in her teens, and her Mother is still alive, and am sure that any undue publicity would be unwelcome...BUT, we are going to print the diary in the EAGLET in succeeding installments so you may come to your own conclusions....some of the contents are extremely provoking...since she names names and places. If you are interested in this story, you might subscribe to our quarterly UFO Contact EAGLET.....

Did you know that SPACE PEOPLE recommend rutiled quartz highly for COMMUNICATION ? And, did you know that the rutiles in the quartz, tend to stress it, and thus make the magnetic field strong and powerful and it becomes a tremendous sending device ? Indeed, as I listend to Tom Bearden discuss scaler waves this past spring of 85, it became evident that this is the type of energy a rutiled quartz tends to generate...Such a field would enhance your own, and build its effectiveness and power greatly.Ufonauts have told their contacts that we place far too much importance on the wrong gems..that we should be more interested in the lowly rock quartz....and the more we learn about this stone, the more we are impressed with its capacities.

If you can find good rutiled quartz, do so. If you cannot, and you want some, we know of a good gem collector who can provide us with excellent rutiled quartz rods for a very minimal sum, and likely could make them into necklaces or whatever for a reasonable price also. Let us know if you want a quartz rod, necklace, ring or whatever....

You might also be interested in the SOLAR RYTHYM of the body...think
about this: noon to 8 P M.....ingest food
 8 P M to 4 A M assimilate that food (do NOT EAT AFTER 8 P M)
 4 A M to noon...eliminate the toxins generated while
 assimilating....

Keep your morning eating light...fruits...light salads..drinks...from
noon to eight...try the heavier foods...meats, cheeses, pastries...etc...
and of course, from eight P M to 4 A M..refrain from eating at all....
but, drink lots of water.

ALL mystical and religious writings refer over and over again to CYCLES...
Cycles are vital and important...and this, of course, is a CYCLE..for the
bodily form.

For those of you interested in many things besides the silver disks that
streak thru our skies...you might try the following to bring some stimuli
into your lives...PSYCHOTRONIC ASSOCIATION 3459 Montrose Ave
 Chicago, ILL 60618 \$20.00 membership

or P.A.C.E. 100 Bronson Ave # 1001 Ottawa, Ontario
 K1R 6G8 CANADA \$30.00 year membership

PACE is a group that exists today, but utilizes tomorrows ideas...when
you read their material, you are the avant garde ...the year 2500 in
action TODAY....

Do you know how to make your home a FOCUS...a point of incoming energy
and communication, AND a powerful broadcasting unit? Simply take a space
..it can be small...and set it up with things you like..a potted plant,
a comfortable chair, stereo or tape deck, small table to do whatever you
feel inclined to do with...and simply make it a point to BE IN THAT SPACE
EVERY DAY, FOR A SPECIFIED PERIOD..BE IT FIVE MINUTES OR AN HOUR...KEEP
WHATEVER YOU DO DIRECTED TOWARD SPIRITUAL GRCWTH...ATTUNEMENT...COMMUNICATION
SOMETHING ALONG THAT LINE...AND DO IT EVERY DAY AT THE SAME TIME PERIOD...
SO YOU SET UP AN ASSIGNED TIME FOR COMMUNICATION FROM CRAFT...LET YOUR MIND
BE OPEN AND RECEPTIVE...HAVE A JOURNAL..WRITE DOWN WHAT IMPRESSIONS COME
INTO YOUR THINKING DURING THAT TIME...FOLLOW WHATEVER PRODS YOU MAY GET
THEN...AS TO MAKING YOUR FOCUS more powerful at broadcasting...and MORE
POWER TO YOU !!! A large cluster of quartz rods would not be amiss on the
table....
